Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Applicant's amendment of 10-19-01 has been considered. While the amended claims have overcome the previous 112/1<sup>st</sup> rejection, they have not overcome the rejection of double patenting. Also, an U.S. patent related to 60/122,292 has been published, which necessitates a new ground of rejection presented herein.

Claims 9, 11, 14, 16-19, and 21-25 are pending.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 1624

1. Claims 9, 11, 14, 16-19, and 21-25 are rejected under 35 U.S.C. 102(e) as being anticipated by **Chiang et. al.** (US 6,326,398). For example, on column 10 lines 12-53, Chiang et. al. lists several species which are embraced by the instant formula (I) with X as  $S(O)_2R^4$  (particularly, compound on line 50 of column 10). Said compounds can also treat thyromimetic disorders as well as hyperlipidemia and cardiovascular disorders.

Thus at the time of the invention, one skilled in the art would have known how to make and use compounds of formula (I) with X as  $S(O)_2R^4$ .

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. **Nonobviousness type DP:** Claims 9 and 24 are provisionally rejected under the judicially created doctrine of double patenting over claims 40 and 42 of copending Application

No. 09/ 696,502. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows: the compounds of formula (I) and their method of lowering lipid and treating cardiovascular disorders are claimed in all instances.

Furthermore, there is no apparent reason why applicant would be prevented from presenting claims corresponding to those of the instant application in the other copending application. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

3. **Obviousness type DP:** Claims 9, 11, 12, 14, and 16-22 remain provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims ~~9~~<sup>19</sup>, 11, 12, 14, and 16-~~20~~ of copending Application No. 09/ 702,634. Although the conflicting claims are not identical, they are not patentably distinct from each other for reasons stated in the previous action.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
